## new season new look

Hello, and welcome to the winter issue of Psychic Sight magazine.

www.psychicsight.com website has had a refresh, you'll notice all of our readers pictures scrolling along the top of each page – you can get a mini profile of them by hovering over each one and if you click on their picture it will take you through to their individual page. You can read their detailed profile and see what feedback other customers have left about a reading with them.

We now have a psychic blog, each week we will be posting interesting articles about the psychic world, health and wellbeing, careers & money as well as celebrity gossip.

We also have a new section on the website called 'Psychic Answers', this is especially helpful for those that are new to readings or haven't had a reading in a while and want to know what to expect and how to choose the best reader. We'll be publishing new information here from time to time.

Social networking is growing more than ever; in the UK over half of the population (around 30 million) has a Facebook account and Twitter has around 7 million active users. So we decided it was time that we set up on both of these platforms giving our customers further ways to communicate with us:

## obituary

It is with immense sadness that we announce the death of our dear reader Malcolm.

Malcolm was a natural communicator and had incredible enthusiasm and brought positivity to his readings. His many regular clients always found him to be most uplifting, often helping them

to raise their spirits in the face of difficult circumstances.

Malcolm will be greatly missed by his customers and everyone at The Psychic Light Group of companies and our deepest sympathies go out to his family at this sad time.

As he begins his new journey we are safe in the knowledge that he has earned his place with the Angels.

## a mature man by Kristen PIN: 2323

Kristen is clairsentient, clairaudient and an expert in tarot.

She has been on a lifelong road of learning and spiritual progression. Kristen is a firm believer in the natural cycle of

life and is attuned to how this impacts various situations and challenges we all face as part of our journey. Kristen's role is to simply channel what she receives from a higher power to help others find their way forward and achieve the best future that is within their grasp. Kristen has tremendous positive energy, which comes through very clearly in her readings. She is truly motivational and can help spur people on to achieve their goals.

Kristen has been kind enough to share an article that she wrote titled 'A Mature Man'.

**A** mature man breathes tranquility. He emanates it because he has successfully evoked unity in himself, and he can manifest the common origin of all beings, since it has become a reality to him in the form of a power to create and liberate without actually doing anything.

His presence alone clarifies, orders, heals. His very existence creates and releases. The culmination of this process is therefore not so much a formed personality, and self-sufficient entity, which embraces a whole Cosmos of established values and reveals itself as such, as one who is a perfect 'middle way' man.

Tranquil as such he reveals the law of the universal unity and the purpose of life in a changing world, unconsciously creating or

restoring as the occasion demands. Strange and well nigh unfathomable is the effect of the mature man. Strange for one whose ideal is a perfectly formed personality.

The place these people occupy in space is, in effect quite empty. There is nothing to go on, there is nothing tangible, no one knows quite what is taking place, what they will do next. A word or a gesture falls with unexpected speed of lightening out of the pure sky and throws a new light on things. Then a grin covers it over and it's though nothing has taken place.

But beneath it all, there remains a powerful silence. One experiences tranquil motion of the soul which releases and fosters ones own spiritual growth.

What is maturity?  
The whole expanse of all.

## our readers

This is a selection of our Elite Readers, each as individual as you are. Detailed is their Personal Identification Number. Quote this number to the Receptionist when you call.

### 1881 mariah

As far back as I can remember I saw, heard and felt Spirit. I had premonitions both awake and in dreams, felt energies in buildings, and saw the people around me for what was in their soul, not their outward appearance. I read Tarot for friends, family, neighbours, colleagues and anyone I was sent. I took courses at the College of Psychic Studies about past lives, healing, dowsing and different ways of reading.

As I always received messages for my clients from Spirit, I became a member of a Mediums Circle within a Spiritualist Church, reading for others mediumistically on a very regular basis. Holding psychic fairs, workshops, platform Mediumship and training new Mediums. My calling is working for Spirit and helping others.

### 3565 lucy

As a child I had a fascination with playing cards and their characters. I remember spontaneously doing 'readings' from the age of 8 for my mum, gran and schoolmates, linking the cards to personalities around me. In my teens I discovered Tarot, I Ching, Yoga and Buddhism, which have been essential guides over the years.

My readings are done using pure clairvoyance, but I still use Tarot if requested. I particularly like to focus on relationships and work dynamics; I hope to help clients make informed choices for happiness and peace of mind.

### 5152 john

I hear and see spirit wherever I go, and I work with my spirit guide 'Blue Arrow' who told me "spirit are always in our life for a reason, to care about us, when anything happens in our life, especially when someone passes over into the spirit world".

I work in halls and churches within the UK. I believe in bringing the two worlds together to let people know that their loved ones are safe and out of pain, and that they are always there looking after them; bringing love from the spirit world above.

### 3009 wanda

Wanda's mother came from the famous Pellegrino psychics and together with her East European father Wanda developed her psychic skills. She is a natural clairvoyant with an avid interest in the esoteric but she has the skill to be able to walk with a foot in both worlds and deal with your issues in a very down to earth manner.

Her forte is working with you and your relationships; she says "Love can make us do the craziest things! When we reach the heady heights of love we experience some of the happiest moments of our lives, but when love turns sour we can be sent down into a pit of despair triggering indescribable fears and feelings of rejection, abandonment and uncertainty." Let her look deeply into why your partner is behaving the way they are and how best you can create a wholesome loving relationship.

### 2012 katy

Katy has been a professional clairvoyant medium for twelve years. She realised she had a gift of psychic ability since early childhood. She was very aware of premonitions from the age of eight, predicting situations and events accurately, days, weeks, months before they actually happened, exactly as she saw them.

Katy is an expert in reading all types of cards, especially angel cards, but prefers to work directly with her spirit guides. She gives direct, honest information to her clients straight from spirit. Katy is very down to earth, with a no nonsense, practical attitude, giving information in an undiluted way as she gets it directly from her spirit guides. She is known for her accuracy, thorough approach to her readings and meticulous detail. Katy has a good sense of humour, is very approachable and compassionate, but also gives the truth in a sensitive but direct, relevant way.

### 9399 marcus

Hi, my name is Marcus and I have been a professional psychic counsellor now for over 10 years. I know it was my destiny to help others; my ability is something that comes from within.

I get a lot of calls regarding love and its surrounding subjects and I always tell the honest truth whether it's time to move on or time to rekindle that old flame. I offer psychic readings using a combination of skill, Tarot card readings, remote viewing, and much more. I have seen spirit since a small child and I have the belief in the power of empathy and honesty and natural dignity and worth of all people. I am deeply committed to helping people to understand, clarify and resolve whatever is preventing them from moving forward in life so if you need guidance please call me.

## angelology by danielle trussoni

Trussoni was an acclaimed memoirist famed for *Falling Through The Earth* in 2006. But she breaks in to the fiction market with her book *Angelology*, which combines an epic fantasy with rich mythology and treasure hunting – Da Vinci Code style!

The book would make a great Christmas present for anyone fascinated with angels, but equally it would satisfy anyone with an interest in supernatural books. Before publishing the book it had seven publishing houses viewing for the rights. It became a New York Times best-seller and has now been translated in to 32 different languages. The book is being made in to a film by Will Smith's production company Overbrook and will be directed by Marc Forster. Danielle is already writing a second book to make a series called Angelopolis.

So what is the story behind *Angelology* - When Sister Evangeline of the St Rose Convent stumbles across a mysterious correspondence with Abigail Rockefeller in the archive, it reveals that angels once walked among us...and might still. This discovery plunges Evangeline into the hidden and dangerous world of the Angelologists - a secret society that battles to prevent the ascendancy of the Nephilim, the angels' descendants on Earth.

Evangeline becomes the catalyst in a race to hunt down powerful and ancient artefacts that can be used to enslave humankind. And not only is the key to finding those artefacts within her grasp - but also a secret about her own past and its links to the Angelologists.

Possession of either could cost Evangeline her life...

## space stones

Every year dust lands on earth from space; even though meteorites have crashed in to this planet since its creation it is rare to find large fragments. Many believe that the remnants are of a planet that orbited between Mars and Jupiter; a space that is now occupied by the asteroid belt. Iron and nickel (metallic meteorites) are more common than rocky meteorites.

Then there is a group of meteorites called Tektites, these are scattered around the globe; their origins are unknown but they likely formed millions of years ago when large meteorites

struck the earth. In the Czech Republic the Tektites are green and are called Moldavite's, elsewhere they are usually black or brown with cratered pitted surfaces in the shape of pebbles.

If you can get hold of a piece of Moldavite it is well worth sitting with the stone and allowing the energy tides to come and go. It is an amplifying stone and so it will enhance the energies of other stones placed with it. It may create imagery in your mind, you may have sensations

of movement and changes in energy – generally it should create a feeling of expansiveness and you should be enlivened.

If you use the stone on a regular basis in a calm receptive way it should enhance your natural sensitivity and psychic skill.

## AERIES

Everything is heading somewhere, even if some of it feels a bit stuck at the moment! There is bound to be a new impetus as the month develops, because the outer planet Neptune will be changing direction and Neptune puts us more in touch with our dreams. Any tensions around the 7th are may highlight where a new focus is needed.

## TAURUS

Slowly, but surely, you are moving towards a resolution in a situation that has vexed you and been problematic. Fast decisions and actions are probably not wise, even if you want to get to an answers more quickly, so bide your time. It will become clearer where it is that you need to place more energy as the month progresses.

## GEMINI

There are bound to be surprises in November, as Mercury is clearly linked with the unpredictable planet, Uranus. You can be fairly confident, however, that positivity is in the air and new opportunities will help to clear any cobwebs away. Make hay whilst the Sun shines as Mercury will be retrograde from the 24th, threatening to slow life down again!

## CANCER

Some juggling around in your work or routine side of life is now required, in order that it truly works for you. Health may have to come first this month, so that you don't risk paying for any neglect or imbalance later. Positive steps will be easy to implement, so long as you are clear about your real priorities.

## LEO

Your ability to enjoy life often pivots upon whether you have the energy to organise to do the things you love. If it feels as though there's too much to manage over the next few weeks, why not accept the help of others? Friends, in particular, seem ready to step in and carry part of any burden, with their pleasure..

## VIRGO

Sometimes it is not possible to anticipate the turns and changes in life's rich path and November has that feel about it for you. There is nothing to be worried about, however. Whatever fresh air blows into your life this month you can be confident that it will be somewhere between a welcome, soothing breeze and a magic carpet ride!

## LIBRA

You have the go ahead to have a bit of fun over the weeks ahead and express more of your own ideas. Libra has a natural, creative streak, so don't be afraid to put your vision forward; the results may surprise you. A boost is on the way around the 27th, bringing smiles in the home or financial arena.

## SCORPIO

You may feel that you have to prove your reputation in some way during the first week of November, but will it be worth the effort? If someone does not understand you, no amount of arguing will help, so you do need to weigh up the value in waging a campaign. A social connection looks golden around the 16th.

## SAGITTARIUS

No matter what water has gone under the proverbial bridge lately, you have the potential to power into action around the November 25th eclipse of the Sun in your sign. It may feel strange in some ways, the set of options now afoot, yet if you want to reach a better, happier ground, it seems that you must keep forging ahead..

## CAPRICORN

Capricorn can be a reserved sign, which means that you tend to keep feelings buried inside. However, there is an opportunity now to sort out an old wound or resentment and set the record straight with someone. You may owe an apology, or vice versa. Either way, your willingness to extend the olive branch is the key to finding peace.

## AQUARIUS

Friendships and group involvements both stand to take exciting, new turns over the next few weeks. It seems that you are in the right place at the right time for innovations to occur and that these will prove to be beneficial, especially in the long term. All it will take is a request, introduction or comment to get the ball rolling.

## PISCES

A misunderstanding could set you off on the wrong foot early this month, so be careful about reading too much into a situation. What is needed is a larger, taller or broader view, so that you can cast your thoughts forward and outward to other possibilities and outcomes.. The 25th promises to be magical if you are willing to extend yourself.
